Flat Clothing 40"/60"

Parallel to the metallic card clothings development the tops also had to be redesigned. Beside of a high mechanical loading of cloth foundation and wire new setting types and an extremely fine grinding of points was absolutely necessary.

We have developed a new tops family as follows:

Deckelgarnitur 40"/60"

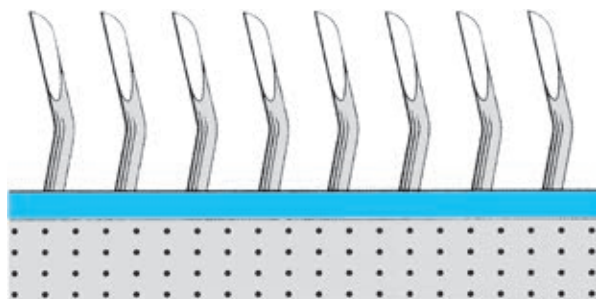

Parallel zur Entwicklung der Ganzstahl-Garnituren mußten auch die Deckel-Garnituren neu bearbeitet werden.

Neben einer hohen mechanischen Belastbarkeit von Stoffgrundlage und Draht wurden neue Setzarten und ein extrem schlanker Schliff der Spitzen zwingend notwendig. Hier haben wir eine neue Deckelfamilie wie folgt:

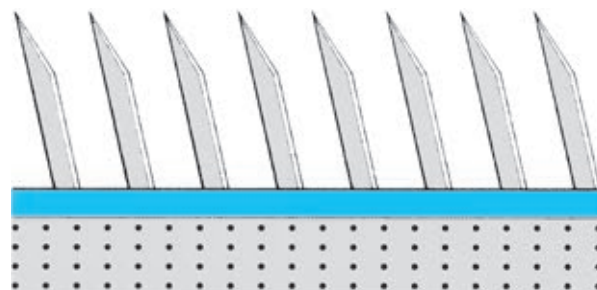

Guarnizioni per cappelli 40"/60"

In parallelo allo sviluppo delle guarnizioni metalliche, si è dovuto provvedere a ridisegnare anche i cappelli e a rettificarli con la massima precisione.

Abbiamo così sviluppato una nuova famiglia come segue:

Biconvex type

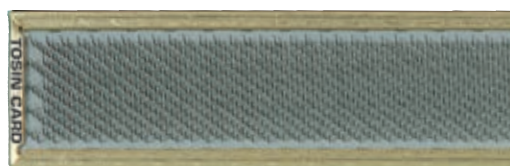

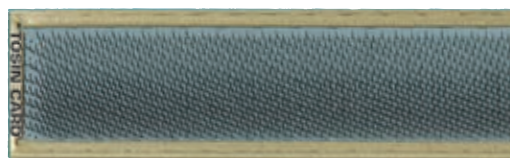

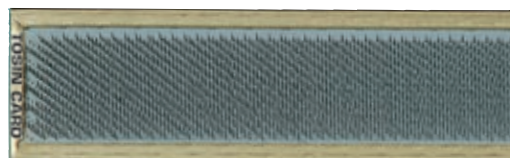

Flattened type

Biconvex type Tipo biconvesso	PPSI Punte x 1" □	Angle Angolo

STATIONARY FLAT TOPS

MAIN FEATURES:

- The production is based on the use of special alloy steel
- Long life span of the wire is ensured by high quality raw material and accuracy
- Minimum tolerance, high precision and maximum hardness assure better resistance and no gaps for trash
- Installation on to iron or aluminium bars is easy and trouble-free as well as replacement
